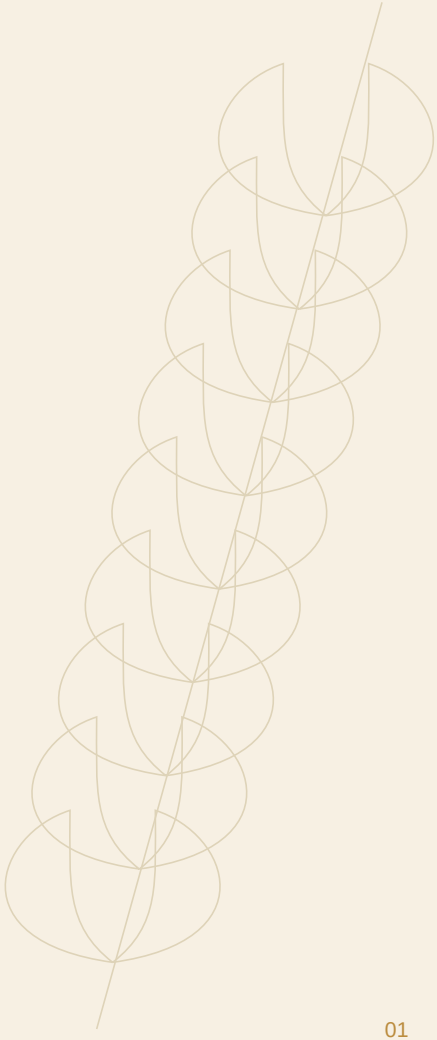
# KAMBO & BUFO

ANCIENT MEDICINE.

TRANSFORMATIVE HEALING.

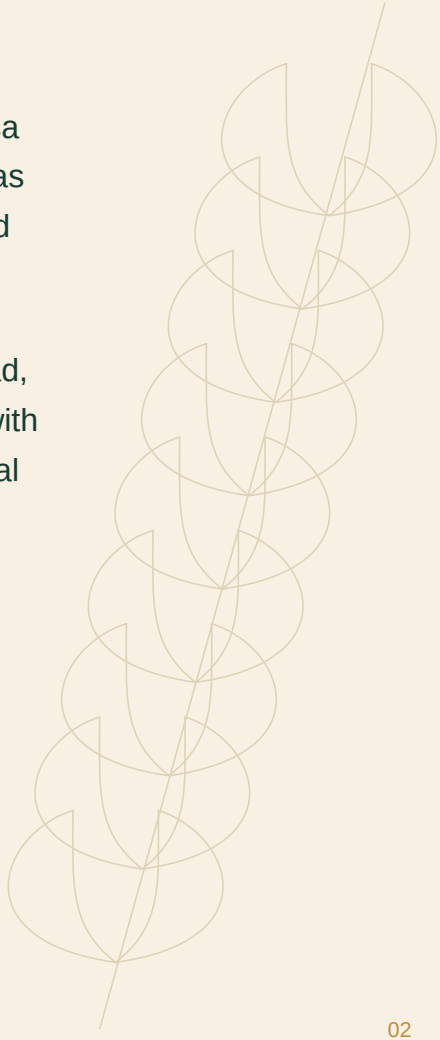
Kambo and Bufo are two distinct substances derived from amphibians, used for healing and spiritual growth.



# What is Kambo?

Kambo is a sacred Amazonian secretion from the Phyllomedusa bicolor (Giant Monkey Frog). Known as “warrior medicine,” it has been used for centuries by indigenous tribes for purification and resilience.

Kambo is not a psychedelic. It does not produce visions; instead, it provides a deep somatic “reset.” By communicating directly with your body’s systems, it clears physical stagnation and emotional blockages, inviting you back to your natural state of inner strength.



# The Science of Reset

Kambo contains a unique cocktail of bioactive peptides that your body recognizes and integrates instantly.

These compounds cross the blood-brain barrier to trigger systemic healing, resetting the immune system and nervous system.

The experience is intense, but it leads to a lasting state of heightened awareness known as **Kambo Clarity.**
